

PORT BOTANY UPDATE
MONDAY 13 AUGUST 2012
TERMINALS & EMPTY PARKS – PORT BOTANY PRECINCT

Dear ACFS Customers

Shipping in Port Botany resumed Sunday following a 2 day closure due to the high winds and rough sea conditions.

Please check ship arrival schedules for import and export information.

Both Patrick and DP World terminals were closed Friday through the weekend and where conditions eased at times allowed container movement.

Empty container parks were closed Friday causing delays with de hires, so please contact your shipping lines to avoid detention charges due to the unforeseen event over the past days.

ACFS will attempt to collect imports and deliver exports in line with new updated vessel arrivals to meet customer bookings. We have had vehicles available over the weekend to take advantage of every opportunity to collect containers.

Thank you

.

Yours sincerely

A handwritten signature in blue ink, appearing to read "Don Hughes", is enclosed in a thin blue rectangular border.
