10th August 2012

NOTICE TO ACFS CUSTOMERS

RE: CONTAINER CHAIN

Dear Customer,

ACFS Port Logistics has been advised that Empty Container Parks in Brisbane will introduce a container booking system (Container Chain) from August 6th 2012. The introduction of Container Chain in Brisbane, is the same as already introduced in Melbourne and Sydney.

We are advised that Container Chain will provide carriers with consistent turnaround during volume peaks, easing the volume spikes throughout the day. This will be achieved through the introduction of time slots, and there will be a maximum amount of timeslots on a per period basis.

Empty Container parks will be charging transport operators a fee for slots, and this will be charged on a per container basis effective from the 6th of August. ACFS Port Logistics will on charge this fee to customers at **$11.50 per container.** The fee will be charged as an

"Empty Container Notification Fee"

Due to the introduction of Container Chain, ACFS Port Logistics will be required to further employ a full time administrator for the slotting of empty containers.

To further support our customers, ACFS will **not** charge for

- Additional handling charges when we are unable to obtain a slot
- Additional transport via depot charges when we are unable to obtain a slot
- ACFS will continue to offer detention free rates at empty parks

To further support our customer base, ACFS Port Logistics will absorb the fee for the month of August, and the commencement of charges will commence on the 3rd September 2012. Charges will apply to all empty container depots in Brisbane.

We thank all customers for your continued support, and look forward to our business servicing your ongoing Supply Chain needs.

Yours sincerely,

Wayne Morris
State Manager - QLD
